

# Our Installation Guarantee

Investing in high quality windows and doors is only part of the equation. Professional installation is just as important. We guarantee that your windows and doors will be installed to the highest standard. All of our installers are trained professionals and are subject to frequent installation inspections. We strive to ensure that the quality of your installation exceeds both industry standards and your high expectations.

1. Industry leading Peel and Stick and Sealant will be applied to the sill of your rough opening to ensure no chance of any future rot (Even if there is sealant breakdown in the distant future)
2. Sealant will be applied behind the nailing flange as a secondary seal against water.
3. Your windows and doors will be shimmed at the correct points
4. Your windows and doors will be installed Plumb, Level and Square.
5. Your windows and doors will be fastened in the correct places
6. The cavity between your new window and/or door and the rough opening will be insulated with the highest quality Hilti Low Expansion Foam
7. The highest quality sealants will be applied around the perimeter of your new windows and will be aesthetically pleasing.
8. Your windows and doors will operate smoothly and properly.
9. Drop sheets will be used on the inside of your home in the work areas to ensure that your home stays neat and tidy.
10. All stickers will be removed and windows and doors. Any debris from installation will be removed from the work site and will be disposed of. Glass will be wiped down.
11. In the event that our installers run into rot, they will repair it to ensure that the new window that we install will not have any problems in the future.
