WOOD INTERIOR DOORS

YOUR INTERIOR DOOR STORY

Interior doors are a source of privacy, comfort and sound reduction within the home. They provide openings to different sections of your living space while helping to define the personality of each room. Choose interior doors that meet the functional requirements of your home and make a statement about your personality.

PANEL AND FRENCH DOORS

Panel doors and French doors are available in a variety of sizes, finishes and configurations, sure to meet your needs. Where panel doors are solid, French doors have panes of glass. Both styles are available as bifolds and bi-parting. Choose the style and options that work best for you.

1

IS YOUR STYLE CLASSIC, CONTEMPORARY OR URBAN?

Classic styles are more traditional, with added details built into door components. Contemporary styles feature angular shapes and minimalist lines and urban styles are refined and chic with elegant details that provide a distinctive look to your home. Our colonial models offer more classic character, while shaker models are more contemporary, and E-sticking models offer an urban look.

PANEL DOORS

COLONIAL PANEL DOORS

Our panel door selection coordinates with century-old styles as well as today's new trends. We offer raised panel doors featuring panels in two standard thicknesses, 5/8" and 1 1/8" (16 mm and 29 mm), and our newest size 3/8" (10 mm) for added definition.
